

SECOND ANNUAL MEETING

June 2-4, 2025, La Cristalera
Miraflores de la Sierra, Madrid

FINAL PROGRAMME

June 2

- 14:00 Registration and lunch
- 16:00 Welcome (Cristina Ferrandiz)
- 16:10 Ignacio Rubio-Somoza (CRAG, Barcelona):
“Understanding the evolution of division of labor in plant development and immunity”
- 17:00 Coffee break
- 18:00 Stephan Pollmann (CBGP, Madrid)
“Identification of a novel link connecting indole-3-acetamide with ABA biosynthesis and signaling”
- 18:45 Short talk: Eva Alvarez (CNB) "DAPonATAC, a versatile tool leading to understanding transcriptional regulation in plants"
- 19: 05 Short talk: Noelia Arteaga “Biología translacional del Óxido Nítrico (NO) entre Marchantia polymorpha y Arabidopsis thaliana”
- 19:20 Flash talks: Concha Gómez-Mena, Bruno Cantarino, Antonio de la Torre, Manuela Rodríguez, Mike Nichols
- 20:30 Dinner

June 3

- 10:00 **Invited speaker: Sandy Hetherington (IMPS, Univ. Edinburgh)** “Uncovering the drivers of complexity in vascular plants, new insights from fossils and genes”
- 11:00 Coffee break
- 12:00 Cristina Ferrandiz (IBMCP, Valencia)
“HECATE, the story of the goddess of boundaries in flowers”
- 12:45 Jorge Hernández (CBGP, Madrid)
“On the origins of auxin-induced transcription “
- 13:30 Lunch
- 16:00 Miguel Blázquez (IBMCP, Valencia) "Ancestral integration of light and temperature signals shaped land plant evolution"
- 16:45 Short talk: Julia Quintana (URJC) "Introducing Minecrop Project: mineral nutrient homeostasis in the binomial crop-wild relative"
- 17:15 Coffee break
- 18:15 Federico Valverde ““A pervasive effect of photoperiod in the physiology of Arabidopsis and tomato”
- 19:00 Short talk: Blanca Salazar (IBMCP) “Parthenocarpy and domesticación in tomato”
- 19:15 Flash talks: Fernando Andres, Carolina Camacho, Wenting Liang, Santiago Michavila
- 20:30 Dinner

June 4

- 10:00 Discussion on next proposal and activities (only network members)
- 11:30 Coffee break
- 13:00 Farewell
